Referral Process – Step by step

- Personal Touch Therapy receives patient referrals from multiple referral sources which may include the parent or the physician
- The child's insurance eligibility and benefits are verified
- Authorization to evaluate is obtained if required by the managed care plan
- A formal evaluation is scheduled and completed by a licensed therapist
- The recommended plan of care is reviewed by the physician
- The plan of care is authorized by Medicaid or managed care plan
- Therapist calls to schedule the therapy visits with the patient or caregiver

This process can take anywhere from 2 to 4 weeks. Therapy sessions are typically one to two times per week for 30 to 45 minutes.

As therapy progresses, we will reassess the child regularly and keep you informed of their progress. We are available to address any concerns that you may have and enjoy sharing our knowledge to assist with facilitating the development of the child's communication skills. To submit referrals please call us at 713-510-5699.
